Administrative Conditions

The following terms and conditions are hereby updated:

1. Interagency Agreement between the U .S. Environmental Protection Agency and the Indian Health Service for Tribal Drinking Water Facilities Construction

I. ADMINISTRATIVE TERMS AND CONDITIONS

This Interagency Agreement (IA) provides for the coordination between the Environmental Protection Agency (EPA) Region 9 Drinking Water Infrastructure Grants - Tribal Set Aside (DWIG-TSA) Program and the Indian Health Service (IHS) Sanitation Facilities Construction Program. This IA applies to funds appropriated to the EPA under section 1452(i) of the Safe Drinking Water Act, which the EPA intends to transfer to the IHS under this IA.

If the actual cost of providing the facilities is less than the amount in the Project Documents, the IHS Area Office and the EPA Region, in consultation with the Tribe, will coordinate the disposition of the remaining funds. The parties may decide to increase the scope or identify another project for funding, or the IHS may return the unused funds to the EPA. Any project changes agreed to by the parties must be reflected in the IA through an amendment prior to expiration of the IA and before allocating funds to a new project, unless the IHS decides to return the funds to the EPA. If the parties cannot come to agreement, the IHS will return the funds to the EPA.

Funds transferred by EPA to the IHS under this IA may only be used in agreements authorized by Indian Sanitation Facilities Act, 42 U.S.C. 2004a.

The IHS is approved to purchase equipment in accordance with its equipment management policies. The IHS will determine that the equipment is in the best interest of the government and is necessary for the performance of the projects under this IA. Disposition of the equipment will be subject to IHS equipment management policies or as specified in the Project Documents with no further accountability to EPA.

A. Resolution of Disagreements

Should disagreements arise on the interpretation of the provisions of this agreement or amendments and/or revisions thereto, that cannot be resolved at the operating level, the area(s) of disagreement shall be stated in writing by each party and presented to the other party for consideration. If agreement or interpretation is not reached within 30 days, the parties shall forward the written presentation of the disagreement to respective higher officials for appropriate resolution.

If a dispute related to funding remains unresolved for more than 30 calendar days after the parties have engaged in an escalation of the dispute, disputes will be resolved in accordance with instructions provided in the Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700, Appendix 10, available at <http://www.fms.treas.gov/tfm/index.html>.

B. Duration of Agreement and Termination Procedures

This agreement shall continue in effect until IHS or EPA provides written notice of termination, or when a project (or projects) funded under this agreement are completed or are no longer needed for the purpose identified in the Project Documents. Any funds that are obligated up to and on the date of termination will remain obligated to the project(s) identified in this agreement. Notice shall be given to the other party at least 60 days in advance of a termination date.

As per section 4.3.2 of EPA's "Interagency Agreement Policies, Procedures, and Guidance Manual 2008" the total duration of the project period for an IA may not exceed 7 years unless (1) there is statutory or regulatory authorization for a longer period, (2) a signed waiver from an EPA Director, Office of Grants & Debarment (OGD), or designee, granting an exception is obtained, or (3) in

the case of an allocation (appropriation) transfer, a shorter period is mandated, i.e., 5 years. This durational limitation includes both the original period of performance and any extensions. The initial determination of the appropriate length of the project period should take this limitation into account. (For example, an IA between IHS and EPA normally has a 5-year term. The IA can be extended upon approval of the parties for up to two more years for a total IA term of 7-years. An IA cannot be extended beyond the 7-year limit unless a waiver is granted by the EPA Director, Office of Grants & Debarment.) To exceed the 7-year policy limitation, a waiver request must be submitted in writing by the appropriate EPA Senior Resource Official to OGD. The OGD Director, or designee, may approve waivers on a class or individual basis because of national security concerns, circumstances of unusual or compelling urgency, unique programmatic considerations, or because the waiver would be in the public interest.

C. Sufficient Progress

EPA expressly reserves the right to terminate the IA for failure to make sufficient progress so as to reasonably ensure completion of the project within the project period (as defined in Section I.B.), including any extensions. EPA will measure sufficient progress by examining the performance required under the Statement of Work, the time remaining for performance, and/or the availability of funds necessary to complete performance. Prior to exercising this right to terminate, EPA will follow the resolution procedures cited Section I.A.

D. Cost Collection upon Cancellation

If the EPA cancels the order, the IHS is authorized to collect costs incurred prior to cancellation of the order plus termination costs, up to the total payment amount provided for under the agreement.

E. IAs with Contracts or Procurement

The IHS will use its administrative policies and procedures including those under the Buy Indian Act provisions for direct federal acquisition, to implement and execute projects funded under this IA.

F. Fiscal and Project Reporting Requirements

The IHS will update its Sanitation Tracking and Reporting System (STARS) quarterly and provide a report in STARS that may be accessed by the EPA. The report will include at minimum, project-specific estimated expenditures and actual milestones achieved to date and will be available to the respective EPA Regional DWIG Program Coordinator and to the EPA Financial Management Center. The STARS will be updated by the 30th day following the end of a quarter, beginning with the first full reporting period after funds are received by the IHS.

G. Audit Findings

If an audit determines that any direct or indirect costs in a project funded under this IA are unallowable, the parties to this IA will be notified immediately following resolution of the audit and the IHS project account will be credited for ineligible costs.

II. PROGRAMMATIC TERMS AND CONDITIONS

A. Authority and Purpose
